TECHNICAL SKILLS

BI & VISUALIZATION
Power BI Desktop & Service · Report UX · Drill-through · Bookmarks · RLS / OLS · Governance

MODELLING & DAX
Advanced DAX · Time intelligence · Star / Snowflake · Semantic models · Monthly snapshots · Medallion

DATA & INTEGRATION
SQL Server · Power Query (M) · Python (Pandas) · SAP S/4HANA & SAP HR · Oracle · Fundanet · APIs · SharePoint · Power Automate

TOOLS & PLATFORMS
Microsoft Fabric · Lakehouse · Dataflows · DAX Studio · Tabular Editor · PBIP / TMDL · Git & GitHub

AI-ASSISTED BI
Claude · Power BI Modeling MCP · AI-assisted DAX/SQL review & model documentation

CORE STRENGTHS

Data quality & validation
Translating business needs into KPIs
Stakeholder communication (C-level)
Training & BI adoption
Autonomous remote delivery

EDUCATION

Master in Data Analytics
PONTIA.TECH · 2023 – 2024

MBA
IMF Business School · 2014 – 2015

International Business Administration
European Business School · Madrid · Paris · London · 2002 – 2007

Professional profile

Senior Power BI Developer and BI analyst with 10+ years turning ERP, finance and HR data into trusted, decision-ready reporting across Finance, HR and Operations.

Specialised in **semantic modelling, advanced DAX and SQL validation**: I reconcile every model against the source before it reaches business users. Experienced with SAP S/4HANA, SAP HR, Oracle and Fundanet data, and with modern Power BI development (PBIP, TMDL, Git, Microsoft Fabric).

Highlights

70%
efficiency gain from automated reporting (FIBICO-IMIBIC)

60%
operational efficiency through data integration (FCADIZ)

40%
less analysis time with optimised dashboards

€5M+
funding secured with data-driven proposals

30+
stakeholders trained, driving BI adoption

2×
ISCIII accreditations supported (2016, 2024)

Featured project

People & Talent Analytics Suite

2026 · Infortec Consultores

HR analytics suite for a multi-company consulting group, giving HR and leadership one consistent monthly view of the workforce.

- **7-page Power BI report**: Executive Summary, Headcount, Turnover, Average Age, Seniority, Absence Hours and Data Export
- Semantic model with **30+ tables and 130+ DAX measures** on monthly employee snapshots and hiring/leaving facts
- **SAP HR (PPOME) organisational data migration**, validated with SQL reconciliation and monthly baselines
- Role-based cost visibility, custom SVG navigation, DAX performance tuning; built as PBIP/TMDL under Git

Interactive demo with synthetic data: angelaruizgallegocv.netlify.app

Work experience

Senior Data Analyst / BI — Power BI

Jan 2025 – Present

Infortec Consultores · Remote

- End-to-end **Power BI solutions** for Finance, HR, Operations and Project Management, from requirements to published reports
- Design of **scalable semantic models** (Medallion principles), complex DAX, KPIs and historical employee snapshots
- **SQL validation and reconciliation** against Gold-layer data: duplicates, granularity and filter-behaviour checks
- Integration of **SAP S/4HANA**, APIs, SharePoint and SQL Server; ETL with Power Query, Python and Power Automate
- **Governance and performance**: RLS/OLS, refresh management, DAX Studio, Tabular Editor, query folding, documentation and lineage

- ✦ Delivered **5+ business-critical BI solutions** and a unified multi-domain reporting framework (finance, HR, operations)
- ✦ Resolved data inconsistencies across ERP, APIs and internal sources, increasing **trust and adoption** of BI

CERTIFICATIONS

PL-300 Power BI Data Analyst
in progress

DP-600 Fabric Analytics Engineer
in progress

Data Analysis & BI · Unicorn Project (2022)

Excel Expert · Dashboards Excel & Power BI · CEF (2015)

Data Analysis & Quality

Apr 2020 – Dec 2024

FCADIZ / INIBICA · Remote

- **Power BI dashboards** for real-time KPI monitoring across research, clinical and operational areas
- Dimensional models (star & snowflake) and **ETL pipelines** with SQL, Python and Power Query
- Centralised reporting integrating clinical, research and HR data, from historical to current
- Key contributor to Andalusia's strategic project **"Portal I+D+i"**: data models and ETL consolidating multiple foundations

- ✦ Improved **operational efficiency by 60%** and reduced **analysis time by 40%**
- ✦ Trained **30+ stakeholders**; data quality framework behind **ISCIII accreditation (2024)**

Controlling & Management

Apr 2021 – Jan 2023

Panacea Cooperative Research (AI) · Remote, part-time

- ERP implementation for project and financial management; dashboards with Power Query and Excel
- Financial process automation with Scrum and Trello

- ✦ Reduced **reporting errors by 30%** and reporting time by 40%
- ✦ Key role in securing **over €5M in funding** for AI and innovation projects

Data Analysis & Management Control

Jun 2012 – Jan 2020

FIBICO-IMIBIC · Córdoba

- Interactive **Power BI dashboards** for project, research-activity and performance KPIs
- Automated ETL with Power Query, SQL, Excel and Tableau; dimensional models and exploratory analysis
- SQL data extraction for the **Investiga+** platform; custom **Fundanet ERP** reporting for budgeting and funding

- ✦ Led digital transformation, improving **operational efficiency by 70%**
- ✦ Designed an **HR performance evaluation system** (+25% tracking accuracy); supported **ISCIII accreditation (2016)**

Senior Financial Consultant

Jun 2011 – Jun 2012

Adventia Solutions / BBVA · Madrid

- Financial dashboards for forecasting and performance monitoring in a banking environment (QlikView, Oracle)
- Budgeting and reporting optimisation, **reducing reporting time by 25%**

Executive Accounting

Dec 2007 – Sep 2010

Deloitte – S2G · Madrid

- Financial analysis, accounting and audit support in international environments; Excel-based reporting tools
